Dr Robert Costanza, Director of the Gund Institute for Ecological Economics recently gave a talk at Wellington's Victoria University on the the ecological and financial crises that are underway.

The video is quite long (55 min) - Costanza's talk starts 5 minutes in. There is also an accompanying presentation, entitled "[The Global Recession: an opportunity to create a sustainable and desirable future](#)" (.ppt 27 Mb).

---

Costanza was invited to New Zealand by the NZ Green Party (via [frogblog](#)).
